

GPRO PATHWAYS

Introducing GPRO Pathways, our newest program.

GPRO is committed to expanding pathways to education and employment for workforce development students from CTE schools or training programs, and/or low-income students. Therefore, we are now working with our delivery partners to offer special pricing for those that provide training to this critical audience.

- For these courses partners will receive a discounted rate of \$85 for Fundamentals and \$100 for trade-specific modules.
- To set up a course please check the box labeled **GPRO Pathways** on the Course Request Form when setting up your class.
- It is our expectation that if you are charging for this class, that these discounts will be passed on to students.
- You will be required to share your pricing and commit to charging less for access to these programs.

Reach out to GPRO at gpro@urbangreencouncil.org for any questions.
